TAYSEER
CHEMICALS & FERTILIZERS

TAYSEER GROUP FOR CHEMICALS & FERTILIZERS

Industrial Chemicals & Agricultural Fertilizers

Manufacturing | Commercial | Logistics & Industrial Services

Saudi Arabia

An Integrated Saudi Industrial Group

Tayseer Group for Chemicals & Fertilizers serves industrial and agricultural markets through its chemical and fertilizer product portfolio.

The Group's business model combines three functions:

- Manufacturing
- Commercial
- Logistics & Industrial Services

These functions support production, sourcing, commercial supply, and distribution activities.

TAYSEER
CHEMICALS & FERTILIZERS

Three Complementary Business Functions

Manufacturing

Industrial chemical and agricultural fertilizer production activities.

Commercial

Sales, business development, international trading, procurement, and distribution.

Logistics & Industrial Services

Chemical storage, transportation coordination, warehousing, and supply chain support.

Together, these functions support the Group's industrial and commercial activities.

Industrial Chemical Portfolio

Tayseer Group's industrial chemical portfolio includes:

- Hydrochloric Acid (HCl)
- Sulfuric Acid (H_2SO_4)
- Sodium Hydroxide (NaOH Flakes)
- Aluminum Oxide
- Aluminum Hydroxide
- Calcium Chloride
- Aluminum Sulfate
- Sodium Bisulfate
- Ferric Chloride
- Monopotassium Phosphate (MKP)
- Potassium Chloride
- Alkylbenzene Sulfonic Acid (LABSA)
- Cooling Agents (Glycols)
- Polyacrylates
- Magnesium Sulfate
- Sodium Metabisulfite (SMBS)
- Polyaluminum Chloride (PAC)
- Sulfur

Agricultural Fertilizer Portfolio

TAYSEER
CHEMICALS & FERTILIZERS

Tayseer Group's agricultural fertilizer range includes:

Potassium Sulfate (SOP)

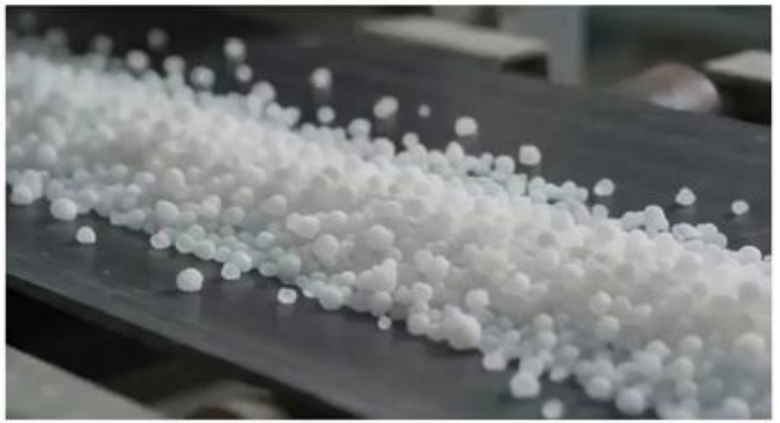

- SOP Powder
- SOP Granular

FANTO NPK Fertilizers

- FANTO 18-18-5
- FANTO 12-12-17
- FANTO 15-15-15

FANTOFOS Fertilizers

- FANTOFOS 20-20-20
- FANTOFOS 15-15-30

Additional formulations should be presented only after technical confirmation.

Chemical & Fertilizer Manufacturing

TAYSEER
CHEMICALS & FERTILIZERS

Manufacturing is a core function of Tayseer Group. The Group's manufacturing activities and industrial development plans cover industrial chemicals and agricultural fertilizers.

Key areas include:

- Industrial production
- Chemical and fertilizer processing
- Production technology
- Quality control
- Industrial facility development

Facility-specific production details and capacities are provided subject to verification.

Commercial Operations

Tayseer Group’s commercial activities support customer relationships and product supply.

Key functions include:

• Sales & Marketing • Business Development • International Trading	• Global Procurement • Export & Distribution • Sales Network Development

The Commercial Division connects product sourcing and manufacturing activities with customer and market requirements.

Logistics and Supply Chain Support

Tayseer Group's logistics and industrial services activities focus on supporting product handling, storage, and distribution.

- Chemical Storage & Warehousing
- Bulk Chemical Transportation
- Logistics Coordination
- Industrial Services
- Supply Chain Solutions

*The scope and availability of individual services are subject to confirmation.

Serving Industrial and Agricultural Markets

Tayseer Group's product portfolio is relevant to the following sectors:

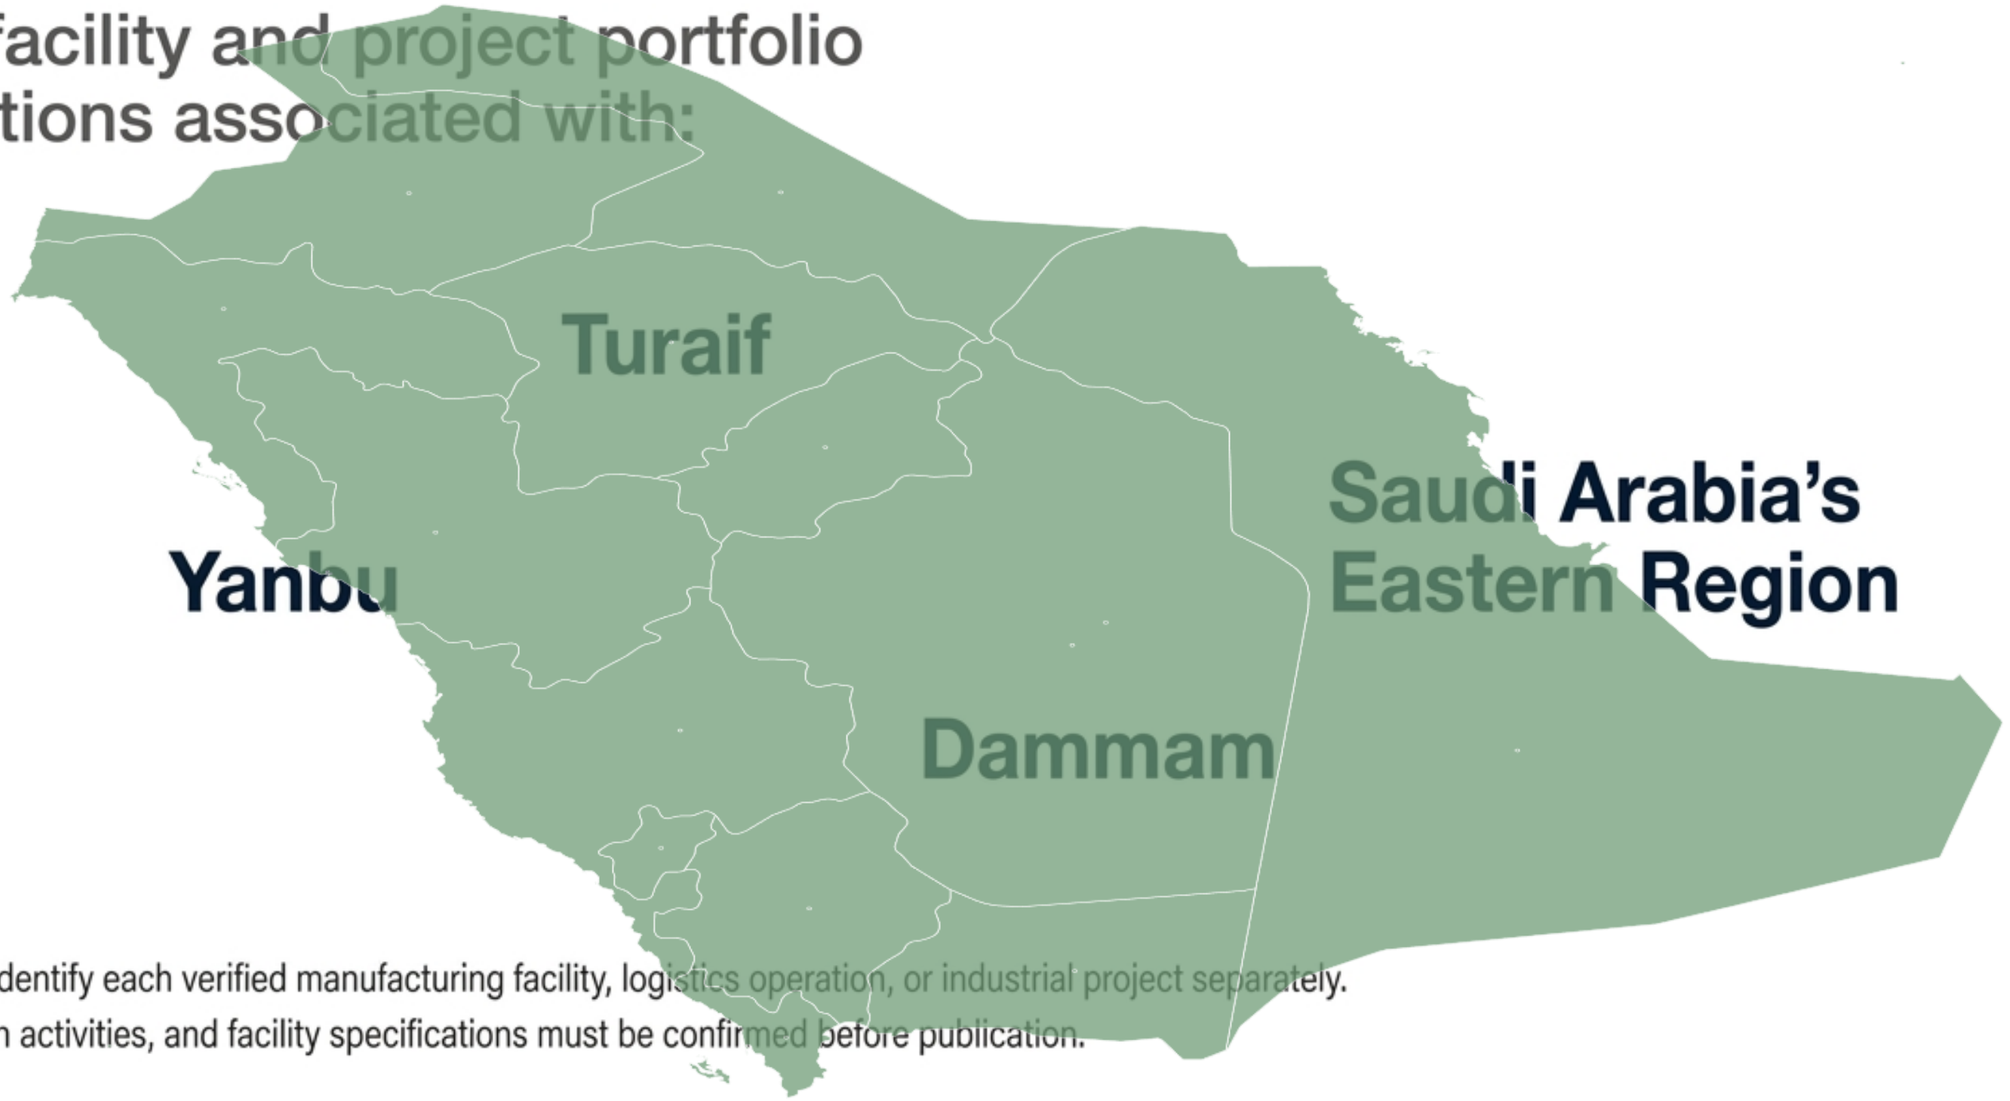

1. Agriculture & Crop Nutrition
2. Water & Wastewater Treatment
3. Power Generation & Desalination
4. Oil & Gas
5. Petrochemicals & Refineries
6. Mining & Metals
7. Heavy Industries & Manufacturing
8. Food & Beverage

Product suitability depends on application requirements, grade specifications, and relevant approvals.

Industrial Facilities and Projects in Saudi Arabia

TAYSEER
CHEMICALS & FERTILIZERS

The Group's facility and project portfolio includes locations associated with:

The corporate profile should identify each verified manufacturing facility, logistics operation, or industrial project separately. Operational status, production activities, and facility specifications must be confirmed before publication.

Quality and Operational Responsibility

Tayseer Group recognizes the importance of quality, safety, and responsible practices in industrial chemical and fertilizer operations.

Key areas of focus include:

- Product specifications
- Quality control
- Responsible chemical handling
- Operational safety
- Compliance with applicable requirements

Specific certifications and management systems should be included only when supported by current documentation.

Business and Supply Relationships

Tayseer Group welcomes commercial inquiries and opportunities related to:

- Industrial chemical supply
- Agricultural fertilizer supply
- Product sourcing and procurement
- Distribution relationships
- Industrial and logistics services
- Business development and strategic cooperation

Commercial discussions can address product requirements, specifications, packaging, quantities, and supply arrangements.
